MCA Graduate | Web & Software Developer

A highly motivated and passionate developer with a strong focus on **creating innovative websites, web applications, software, and games**. I am committed to **continuous learning** and regularly stay updated with the latest technologies to **enhance my skillset**. My practical experience includes developing **custom software**, designing engaging **websites**, and building immersive gaming experiences, along with **creating two audio mods for popular PC games**.

With strong **troubleshooting abilities in Windows OS** and a proven track record of problem-solving, I also actively share my expertise through my **YouTube channels**. While I may not have formal job experience, **my portfolio** of completed **projects and hands-on experience demonstrate my ability** to deliver high-quality, technical solutions.

Projects
